# MISSISSIPPI NATIVE PLANT SOCIETY

June 1982

### **Tishomingo**

### Field Trip

Our April outing with the Jackson Audubon Society to Tishomingo State Park was nothing less than a smashing success both in terms of the number of different plants and birds identified as well as in regard to the good times shared by all. After our orientation meeting Friday night, it was off to tent or cabin for what was for many a short night's sleep. Dawn found many of our members already up and so obviously excited about the good times to come that even the steady rain couldn't dampen (pardon the pun) their spirits. Others among us, though not less spirited at a later hour, seemed more of the opinion that nothing short of a house fire was worth arising for at that time of day. Your editor's sympathies were entirely with the latter group, and so he and his comrades simply pullen the covers over their heads and ignored the proceedings as best they could. Finally, we were all up, showered, breakfasted, and eager for a weekend of what was mostly rainfree nature study. And what a varied weekend it was!

Between the vascular plant expeditions led by Sidney McDaniel, Robert Stewart, Fred Searcy, and Tom Pullen; the fungi expedition led by Bill Cibula; and the slide shows presented by Travis Salley and Bill Cibula there was never an idle much less dull moment. On top of all these actities there were also the walks taken by the Jackson Audubon Society members which many of us attended.

Well, as I have been nearly jumping out of my sking to say, it was one terrific weekend, and we would be amiss not to pay special thanks to the following: all those who I have already mentioned as having led trips or given slide programs; Travis Salley for handling the finances; Travis Salley for sharing wild plants from his garden with any who wanted them; Tina Adkins and the Park's kitchen staff who served excellent food and plenty of it; all the members of the Jackson Audubon Society who so freely shared their knowledge of birds with us; everyone else who by just being there made the trip that much more enjoyable,

Lowell Newby

VASCULAR PLANTS OBSERVED IN TISHOMINGO STATE PARK, 4/17/82

Common Name(s)	Scientific name(s)
Soutnern Sugar Maple	
False Aloe, Rattlesnake-master	
Wild Garlic	
Speckled Alder	
June Berry, Service Berry	
Blue Dogbane, Blue Star	
Pussy Toes, Ladies Tobacco	
Green Dragon, Dragon Root	
Small Jack-in-the-pulpit	
Giant Cane, Large Cane	
Pinnatifid Spleenwort	Asplenium pinnatifidum
Ebony Spleenwort	Asplenium platyneuron
Aster	Aster spp.
Lady Fern	
·	asplenioides
Rattan Vine, Supple Jack	Berchemia scandens
Cross Vine	Bignonia capreolata
Rattlesnake-Ferr	Botrychium virginianum
Sweet-Smelling Indian Plantain	
Eastern Camass, Wild Hyacinth	Camassia scilloides
Walking Fern	Camptosorus rhizophyllus
Rock Cress	Cardamine hirsuta var.
	pycnocarpa*
Sedge	Carex spp.
Hornbeam, Ironwood	Carpinus caroliniana
Hickory	Carva spp.
Mouse-Ear Chickweed	Cerastium glomeratum*
Red Bud	Cercis canadensis
Chervil	Chaerophyllum tainturieri*

- No. 1

### This & That

Joan Pitcher, 22 Sulinda St., Natchez, MS J120, is our current Vice-President of MNPS. She is the first paid Life-Member. At \$75.00 and a possible future increase in membership fees, it may be a good investment.

\*Dues are payable Jan. 1 of each year for one calendar year. All dues for 1982 should be mailed to Travis Salley, 202 N. Andrews Ave., Cleveland, MS 38732 (601-843-2330), payable to Miss. Native Plant Society. \*If your name or address is not complete or incorrect, please let me know. If you do not receive your newsletter, please adivse.

\*Mrs. Leewynn E. Hodges, 6900 Ocean Spring road, Ocean Springs, MS 39564, reports 4 orchids she has resued and are doin wellyellow fringed, grass pink, rose bud, and one that resembles the calypso bulbosa, also a large Titi tree about 35 feet high and 8 in. diameter. If you have a specific interest in these you might contact her. \*We have several new members and address changes listed elsewhere in the newsletter. Why not contact a member and exchange ideas ind pass them on to the Editor, Lowell Newby, Rt2, Box 92A, Bogue Chitto, MS 39629, phone 833-3935. There is a lot of information about native plants among the MNPS membership.

\*My "weed patch" is out doing itself this spring. It has taken about 4 years to get adjusted. The spider lily, wild iris, and blue eyed grass have put on a show. We picked over a quart of wild strawberries and gave up. They are so small (and delicious)

\*I have received several calls, letters, and personal word about the April Field trip at Tishomingo State Park. The bottom line was most thougt it was a good meet. \*It takes a mot of people to carry off a meet of this type. There were a lot of individual and group effort put forth. The Jackson Audubon Society and Miss. Native Plant Society seen to make a good combination. Special thanks to the employees of the Tishomingo State Park for their effort. About 100 people attended the meet. I am ready to go again.

Travis Salley, Sec.-Treasurer

-Best wishes to Faye Swam whose son was married on May 23. Faye assures us that she will be a super mother-in-law. Of course, we never had any doubts.

-One of our charter members, Marian Alexander, said that the Tishomingo outing was her first field trip. Hope to see you more often, Marion.

-We were pleased to hear that Travis

-We were pleased to hear that Travis Salley's native plant garden is doing so well this year. If you're ever near Clevelan, I'm sure he would be pleased to show it to you.

-Speaking of gardens, Mary Burkes says she is "insufferably proud of my garden". She has gladiolas growing beside her corn, and Coreopsis intermingled with the lima beans. Sounds beautiful, Mary.

-Francis Smiley tells us that in some areas, turpentine is extracted from pine stumps. Is this being done in Mississippi? Can anyone tell us more about the process?—Halla Jo Ellis, a new member from Terry, is also active in the Miss. Orchid Society. They meet the first Monday night of each month at 7:30 at the MP&L building in Jackson. For more information, Falla Jo can be reached at 355-1511 or 372-2887. For those of you who live in south Miss., the Mississippi Orchid Society also has chapters in Mattiesburg and on the gulf coast.

-A hearty welcome to our 21 (that's right TWENTY-ONE) new members. Glad to have you aboard.

-Along with Travis Salley's cursively written (that's cursively not cursedly) contributions to the newsletter came a short note with the following P.S., "I have a typewriter but I do not type very well, also I have a 5 year old grand-daughter to help me type so I hope you can read my writing". No problem Travis. Your editor, doesn't type either, so the newsletter is first written out by hand after which it is sent to a fellow who is no less our patron saint, Will McDearman. He then sees that it is type, arranged appropriately, and deliverd to the printer. A million thanks, Will.

Editor

#### PLANT IDENTIFICATION WORKSHOP

The Miss. Museum of Natural Science is offering a workshop entitled "How to Identify Flowering Plants" taught by Dr. Ken E. Rogers. The course will consist largely of field work and will deal with identification, collection and preservation of native Mississippi flowering plants. The course will meet on Saturday mornings from 9:30-12:00 Aug. 7, 14, 21, and 28 and will cost \$30. Participants must preregister by calling the Museum at 354-7303.
